

# Sofa

Before gluing, trace the outside of the front and back onto the material you will be using, leave enough around the edges for folding over.

Cushions

Side

Seat

Bottom

1. Glue on bottom, center it, there is a tiny gap on each side for the side piece

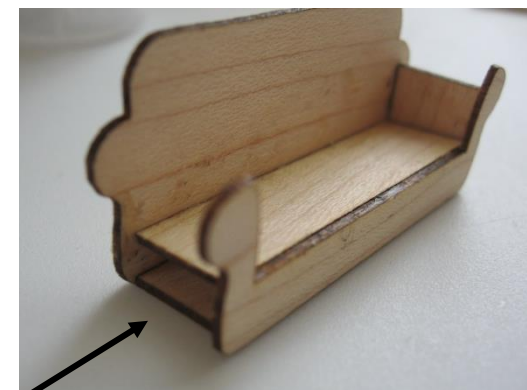

2. Glue one side

3. Glue seat to the front piece flush with the top

4. Glue front and seat piece.

5. Glue other side

6. Glue dowel resting on top of the side piece and between the front and back. I cover mine and the seat cushions with batting before upholstery

Make sure these are level
